ANNUAL REPORT
OF THE
MUNICIPAL OFFICERS
OF THE
TOWN OF BUXTON
MAINE
For the Year Ending February 7
1949

NOTICE TO DOG OWNERS

Your 1949 dog license will be due and payable April 1st. If unpaid by June 1st you will be notified by mail and an extra fee of 85c added, then if unpaid you may be summoned into Court, which will cost you several times the amount of the license.

Do not look for any collector to call, this is a license, not a tax, and it is up to you to see that it is paid.

Revised Statutes, Chapter 5, as amended to 1942.

H. F. BENT, PRINTER
Gorham, Maine

AUDITOR'S REPORT**CORPORATION AUDIT COMPANY****Portland, Maine**

February 11, 1949.

To the Inhabitants of the Town of Buxton, Maine:

At the request of your municipal officers and in compliance with Chapter 80, Section 116, Revised Statute, 1944, of the State of Maine, we have made a detailed audit for the year commencing February 7, 1948, and ending February 10, 1949.

The town warrant for the year 1948 and the records of the clerk, assessors, tax collector, treasurer, superintendent of schools, and the heads of all departments have been checked in detail so as to correctly reflect a true and correct view of the state of the town's affairs. The records, vouchers, warrants, receipts, trust funds, licenses, and tax deeds were verified and such adjustments as were recommended have been made. The expenditures were those authorized by the town warrant. The records of the assessors, tax collector, treasurer, were verified in detail. An analysis of the surplus at the beginning and the close of the year and the receipts and expenditures correctly reflect the cash balance and the accounts of all the officers and of all those associated with any of the departments are in my opinion true and correct.

CORPORATION AUDIT CO.,

SETH W. NORWOOD,
Auditor and Legal Adviser.

LITTLE RIVER 4-H CLUB

THIMBLE 4-H CLUB

There are eight members in the Little River 4-H Club run by Mrs. Elsie Libby and eight members at the high school Thimble 4-H Club also run by Mrs. Libby.

The Woodwork 4-H Club also has eight members all taking the Home Improvement project. This club was highest scoring club in the county for last year. This is run by Albert Libby.

The Little River Club, run by Elsie Libby, was second highest scoring club in York County last year. These two clubs took first place in almost every project taken by the members.

The Thimble Club is a new club at the high school and all the members are enrolled in sewing.

The money was equally divided among the members, that the town donated.

MRS. ELSIE LIBBY,

ALBERT H. LIBBY,

DANCING DAISIES CLUB OF DUCK POND AND GROVEVILLE

Projects consisted of dairy, pig raising, sewing, cooking and housekeeping, poultry, woodworking or home improvements, canning, gardens, in the Duck Pond-Groveville Club. Lena Owen, leader.

Prizes were awarded to the following: George Deering, Keith Leavitt, Arlene Owen, Jane Bumpus, Roberta Bumpus, Margary Deering, Audrey Huff, Carroll Cram, Verena Merrill, Sally Huff, Phyllis Walker, Arlene Deering, Jean Deering, Robert Deering, Richard Churchill.

ANNUAL REPORT OF PUBLIC HEALTH NURSE

BUXTON — 1948

During the past year, the Buxton Health Council has given valuable assistance to your public health nurse by assisting in all health programs.

In May, the hearing of 293 students, fourth grade through high school, was examined with the audiometer. Eighteen were found to have some hearing defect. The parents of these children were notified and visits were made to homes of those with the most serious loss, to explain the need of further examination.

This summer, three Child Health Conferences were held, a month apart. One was at Groveville, one at Bar Mills, and one at West Buxton, to make transportation, to at least one, easy for everyone. Thirty-nine children were given physical examinations by Dr. A. G. Wiley or Dr. Ernest Eppinger. Eleven completed the series of inoculations for whooping cough, diphtheria, and tetanus and twenty-two were vaccinated against smallpox.

At the fall meeting, new officers of the Health Council were elected. They are: Chairman, Mrs. Pauline Davis, Salmon Falls; First Vice Chairman, Mrs. Elinor Elliott, Groveville; Second Vice Chairman, Mrs. Grace Plummer, West Buxton; Secretary, Mrs. Elsie Libby, Buxton Center; Treasurer, Mrs. Matilda Woods, Bar Mills.

On November 3, school physical examinations were started. Athletes and pupils whose parents are willing in grades one, four, seven and ten, are being examined by Dr. Ernest Eppinger, who has given Hollis and Buxton his afternoons off until all these students have been examined. This project is being financed by donations to the Health Council from organizations and parents. Their co-operation has been greatly appreciated. If this program and the Child Health Conferences can be continued annually, your pre-school child may have a yearly physical examination with approved inoculations and your school child will have this opportunity once in three years. This will certainly give the children of Buxton a good start in life. No treatment is given in either of these programs but parents are notified of all defects found so treatment may be obtained from the family physician. When desired, assistance is given in planning for clinic appointments.

Home visits were made by your nurse to expectant mothers, infants, pre-school, crippled children, and those with heart involvement. Any needing the service have been referred to Crippled Children's or Cardiac Clinic in Portland so they could receive the examinations and recommendations of a specialist. Those needing a chest X-ray were X-rayed at Biddeford or Westbrook Chest X-ray Clinics. No reinfection tuberculosis was found.

Schools were visited frequently to assist the teachers with health problems.

Your nurse will continue to call at Buxton regularly and hopes to be of assistance with any health problems in the home or school.

Respectfully submitted,

MAREA G. LUNDBERG,
Field Nurse.

SCHOOL CLINIC
BUXTON-HOLLIS HOSPITAL, INC.

Bar Mills, Maine

The annual report of Buxton-Hollis Hospital is, herewith, respectfully submitted. During the year 1948 two people were cared for under free-bed service. One patient received care for five days and the other patient for seven days.

We were fortunate enough to procure the services of Dr. Anton for a limited time this summer. Forty-eight children from the town of Buxton attended the dental clinic. In addition to examination of the teeth of the forty-eight children, thirty-eight fillings and twenty-five extractions were completed.

I feel that we have been very fortunate this year in having the help and assistance of Dr. Eppinger in the two towns.

At this time, I wish to again thank the people of the two towns for their continued help and support of the Buxton-Hollis Hospital.

Respectfully submitted,

Buxton-Hollis Hospital, Inc.

By A. G. WILEY, M. D.,
President.

REPORT OF THE FIRE WARD

To the Municipal Officers and Citizens of the Town of Buxton:

I herewith submit the following report of the fire department for the year 1948 and 1949.

During the year your Bar Mills fire department answered 69 calls: twenty-two were grass and brush, seventeen chimney, nine dwellings, five automobiles, one sawmill, one refrigerator, one gas pump, one trailer and one crane.

One false alarm was answered and eleven were out of town: five grass and brush, two sawmills, two dwellings, one automobile and one chimney fire.

The firemen have purchased the following:

Rubber coats,	\$180.00
Rubber boots,	77.50
One 1941 1 1/2 ton Chevrolet truck chassis,	700.00

They picked up a 1,000 gallon tank in Augusta donated by the State, which is mounted on the chassis with a small pump and hose. We have used this a few times. The tank needs baffle plates, a coat of paint, a larger pump and more hose. Also, a warm place to house it! It could be very useful in winter when reservoirs and brooks are frozen.

The purchase of this equipment was made possible through the co-operation of the citizens, by donations and purchasing tickets for entertainments.

We have also supplied our auxiliary fire department of Chicopee with a new forestry pump, six Indian tanks, five hundred feet of inch and one-half hose, a few shovels and brooms. They need our help to complete their fire house and purchase a good used truck chassis for their tank truck.

Respectfully submitted,

PHILIP S. BROOKS,
Fire Ward.

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the superintending school committee and citizens of the town of Buxton, the annual report is herewith submitted:

In a time of rising costs your continued support of our schools and your continued interest in education is deeply appreciated. We have been enabled to secure improved facilities, textbooks with the latest subject matter and new educational aids and helps for the teachers. Excellent progress has been made in our schools in spite of the teacher shortage. This accomplishment has been in the classroom where in many instances the work has not been brought to the attention of the parents. It is the consistent good work from day to day that counts for so much in the lives of the pupils. This work of the faithful teachers is more important than elaborate equipment or any other factor. It has been exceedingly difficult to secure teachers this year; and there is no promise of any improvement in the next few years. A remedy for this situation would be increased financial support from the state, to enable towns to pay more attractive salaries. The present salaries are not high enough to attract high school students of ability to our teacher training institutions for a four years' course in preparation for teaching.

Although bills are pending for new State and Federal aid there is considerable uncertainty about the enactment of these measures. In making the recommendations for appropriations the possibility of securing additional State or Federal aid was not considered.

Secondary School Consolidation

Throughout the State many towns are considering plans for school consolidation and construction of central school buildings. In neighboring towns the question of consolidation of small high school buildings is being considered. A bill to provide special aid to towns for the construction of school buildings is before the legislature.

In view of the interest that has been manifested in school consolidation it seems desirable to explain what the plan has to offer.

Permissive legislation by the 1947 legislature made it possible for two or more towns to unite for the purpose of providing better secondary school facilities. Such legislation is permissive and not compulsory in any way. It was provided that the formation of a Community School District could be voted by the inhabitants of the respective towns at a town meeting called for this purpose in the same manner that a regular town meeting would be called; to form a secondary school known as a "Community School District." The district would be authorized to acquire and hold property.

Organization

When two or more towns have voted to form a school district the municipal officers in each town of the proposed district shall appoint three persons to be incorporators of the district, and they shall become trustees of the said district.

A community school committee shall consist of not more than nine members; the number to be determined by the trustees. The representation of each town shall be prorated according to the enrollment of each town. Election of school teachers and the administration of school matters are controlled by this committee. All other matters are left to the trustees.

The total indebtedness cost for school building construction shall not be in excess of 5% of the total valuation of the towns.

It is obvious that by combining resources and maintaining one secondary school an educational program could be made available which would offer educational advantages that would be similar to those enjoyed in large communities. All costs, including cost of building and cost of operation of the district school, are prorated on the basis of the valuation.

A Different Curriculum Needed Today

Nearly all of our students today wish to have the advantages of a secondary school education. The program of a few years ago is no longer adequate to meet the needs of all in attendance. We are still teaching many of the traditional college preparatory subjects. Yet the cost of an adequate program would be practically prohibitive for the small school. Such a program requires a long distance planning for the future. We should keep in mind the increasing enrollment in all schools and make ample pro-

vision for future needs.

The old idea of the study in school of subjects far removed from actual life experiences has given place to the study of subjects related to daily living. For pupils become acquainted in the study of home economics—with home making; in manual training with carpentry; in commercial law and economics with the business world of today. The first duty of the school is to teach pupils to do better the desirable things of life that they will eventually do in life anyway. In emphasizing the importance of vocational training we are not losing sight of the importance of a thorough foundation in English, mathematics and the social sciences.

Actually many students in different towns in the State are leaving the towns of their residence and are attending schools in larger communities where they are electing vocational courses and the tuition is paid by the town of their residence.

The Six-Year High School

A new pattern in education would be provided in both elementary and secondary schools in the respective towns. The community district school according to the plan proposed would be a six-year secondary school and would include grades 7-8 as well as grades 9-10-11-12 with grades 1-6 in the elementary school.

In the elementary schools grades 1-6 is the time for acquiring basic skills in subject matter. There are certain improvements that would be accomplished in consolidation of these grades. There would be a teaching force with a smaller teaching load, with more time for individual work with the pupils and better physical surroundings.

Work of a Survey Committee

It is obvious that a careful study of the whole educational program is necessary. Such a study will require considerable time and a thorough investigation of the possibilities that consolidation has to offer. We should avoid any hasty or ill advised action in a program that involves the expenditure of a large sum of taxpayers' money.

However the most important consideration of the whole matter is to work out our program in such a way that the youth en-

trusted to our care shall have the best possible preparation for efficient living. Better trained teachers would be available and pupils would be able to select courses in the field of their real interest and aptitudes in a larger school unit. Many teachers in small schools are teaching subjects which they are poorly prepared to teach. In some cases there are small classes with only three or four pupils in a class. Such teaching has a high per capita cost.

Distances to a central point in a consolidated system can be covered as rapidly today as distances in a single town a few years ago. Teachers could be employed to teach essential vocational subjects at no greater cost than under the present plan of maintaining schools with a small enrollment. In a larger system there would be a guidance program to discover the individual abilities and guide the pupils into the proper vocational courses. In such a school pupils would be better prepared to secure employment on leaving school.

Athletics and Physical Education

Most small towns are greatly handicapped in athletic competition and in a program of physical education as required by the State. Most small schools do not have good athletic fields near at hand and the gymnasiums are either lacking entirely or wholly inadequate. In a larger unit of several towns a real physical education program could be set up. The small towns would not be justified in expending the large sums that would be necessary for building a gymnasium that would meet all needs.

Agriculture Course

We were fortunate this year in being able to retain our teacher in the agriculture course, Mr. Paul Johnson. Some very worthwhile projects have been carried out which prove the value of a vocational course in high school. Thirty-three pupils were enrolled in the course during the past year. This course is continued through the entire year. Much interest has been manifested in projects in dairying, swine, vegetable gardening, raising strawberries, and poultry. A portable sander has been purchased which was used to advantage by Mr. Johnson in resurfacing the desks in the high school building. There has been a great improvement in the appearance of the lawn in front of the agriculture building. The

land has been graded and seeded down and a concrete walk was constructed. Book shelves were put up in the high school library. Students learn in carrying out these useful projects.

Drilling Artesian Well at Bar Mills

The old shallow well had never been adequate to furnish a sufficient supply of water at all times through the year. Tests had revealed that the water was unfit for drinking purposes and the town was under the expense of supplying water from another well.

A deep well was drilled to the depth of 83 feet. An excellent supply of water was obtained. The flow of water was far in excess of any needs of the school. The test revealed that the supply of water was entirely satisfactory for drinking purposes. A supply of good drinking water is very important from the standpoint of health. A large amount of water is used daily in a school the size of Bar Mills and it is a matter of satisfaction to have such an excellent supply available. A deep well Deming jet pump was installed.

Repairs

A great improvement has been made in the Bar Mills Building by making some very necessary repairs. There was only one stairway leading from the Bar Mills basement; and the exit from the boiler room was not easily available. This situation constituted a very serious fire hazard. Steps have been built on each side of the basement to the large basement windows, furnishing a means of exit from the building.

In the basement the old partitions of pine sheathing were removed, and walls were built of concrete building blocks for the separate compartments.

This is a great improvement and a protection from fire and the new partitions can be cleaned more easily. With these precautions we have safeguarded the pupils in a large measure from any serious fire hazards.

A large amount of general repair work was accomplished: such as puttying windows, putting in window weight cords and setting glass, and in general upkeep of buildings and repair of seats and desks. Attractive new window shades were purchased for the high school and the William C. Webster School. The

William C. Webster, Bog Mill and West Buxton buildings have been redecorated on the inside in attractive colors and present a greatly improved appearance. The Bog Mill, West Buxton and Duck Pond buildings have been wired for electric lights.

Repair Work Another Year

The high school and Bar Mills school buildings should be painted another year. It has been several years since these buildings were painted and they are greatly in need of paint. It is a good policy to keep buildings painted and in a good state of repair to prevent deterioration which would be costly.

Respectfully submitted,

GEORGE E. JACK,
Superintendent of Schools.

WARRANT FOR ANNUAL TOWN MEETING

York, ss.

To Ulric E. Smith, a Constable of the Town of Buxton, in the
County of York and State of Maine. Greetings.

In the name of the State of Maine you are hereby requested to notify and warn the inhabitants of the said Town of Buxton, qualified to vote in town affairs, to meet in the town house of Buxton on Monday the 7th day of March A. D. 1949 at 10 o'clock A. M. to act on the following articles.

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to accept the reports of the several town officers.

Art. 3. To see if the town will vote to continue the present system of voting as adopted at the special town meeting of June 11, 1934, Article 7.

Art. 4. To choose town officers for the ensuing year.

Art. 5. To see if the town will vote to grant and raise the sum of \$2,300.00 for payment of one year's note and interest for construction of Salmon Falls bridge.

Budget Committee recommends \$2,300.00. Unanimous vote.

Art. 6. To see if the town will vote to authorize a comprehensive survey regarding school consolidation, and if so to choose a special committee to serve with the superintending school committee in the conduct of such investigation with instructions to report its findings at the next annual town meeting or at a special town meeting called for this purpose.

Recommended by Budget Committee. Unanimous vote.

Art. 7. To see how much money the town will vote to grant and raise, in addition to the sum of \$5,000.00 raised at the last annual town meeting on March 1, 1948, for the purpose of cre-

ating a school building fund, such fund to be expended at some future date for the erection of a school building; to provide for the consolidation of secondary schools; or some other type of construction of school building, this sum to be invested by the selectmen and held until the expenditure of the same shall be voted by the town, then this sum of money and other funds accumulated for this purpose, shall be expended as directed by a vote of the town under the oversight of a building committee composed of the three selectmen and the three members of the superintending school committee and six other members to be appointed from the floor at some future town meeting. Superintending school committee recommends \$10,000.00.

Recommended by Budget Committee. 12 for, 2 not voting.

Art. 8. To see if the town will vote to grant and raise the sum of \$33,500.00 for the support of high school and elementary schools, for teachers' salaries, janitors, fuel, textbooks and supplies, and for the elementary school conveyance for the ensuing year.

Recommended by Budget Committee. Unanimous vote.

Art. 9. To see if the town will vote to grant and raise the sum of \$1,800.00 for school repairs and equipment for the ensuing year.

Recommended by Budget Committee. Unanimous vote.

Art. 10. To see if the town will vote to grant and raise the sum of \$1,300.00 for the cafeteria in the high school.

Recommended by Budget Committee. Unanimous vote.

Art. 11. To see if the town will vote to grant and raise the sum of \$600.00 for music in the schools for the ensuing year.

Recommended by Budget Committee. Unanimous vote.

Art. 12. To see if the town will vote to grant and raise the sum of \$300.00 for a public health nurse for the ensuing year.

Recommended by Budget Committee. Unanimous vote.

Art. 13. To see if the town will vote to grant and raise the

sum of \$1,800.00 for the course in agriculture for the ensuing year.

Budget Committee recommends \$1,650.00. Unanimous vote.

Art. 14. To see if the town will vote to grant and raise the sum of \$2,500.00 for exterior painting of the high school building and the Bar Mills school building.

Budget Committee recommends \$1,000.00 to paint Bar Mills school building. 13 for and 1 against.

Art. 15. To see if the town will vote to grant and raise the sum of \$300.00 for insurance of school property for the ensuing year.

Recommended by Budget Committee. Unanimous vote.

Art. 16. To see if the town will vote to authorize the selectmen to sell and convey the N. C. Watson school building and the N. C. Watson school lot to the Chicopee fire department. Petition of Gerardus van Betuw and 39 others.

Budget Committee recommends the selectmen give a 99 year lease of the building and lot to the Chicopee fire department for \$1.00 per year. Unanimous vote.

Art. 17. To see what action the town will vote to take in regard to selling the Shadigee school building Shadigee school lot.

Recommended by Budget Committee. Unanimous vote.

Art. 18. To see if the town will vote to construct an additional room to the W. C. Webster School at Groverville and raise money for the same or to move a vacant school building to attach to the Webster School. Petition of Gertrude Tapley and 28 others.

Recommended by Budget Committee to be left to Survey Committee. Unanimous vote.

Art. 19. To see how much money the town will vote to grant and raise for a school clinic and free bed in the Buxton and Hollis Hospital.

Budget Committee recommends \$750.00. Unanimous vote.

Art. 20. To see if the town will vote to grant and raise the sum of \$1,296.00 for the construction of State Aid highway, No. 4, for the ensuing year.

Recommended by Budget Committee. Unanimous vote.

Art. 21. To see how much money, if any, the town will vote to grant and raise in addition to the sum voted in the above article for the construction of State Aid highway, No. 4.

Budget Committee recommends \$1,500.00. Unanimous vote.

Art. 22. To see if the town will vote to grant and raise the sum of \$1,700.00 for patrol maintenance of State Aid highways for the ensuing year.

Recommended by Budget Committee. Unanimous vote.

Art. 23. To see how much money the town will vote to grant and raise for the maintenance of town highways for the ensuing year.

Budget Committee recommends \$4,000.00. 8 for, 3 not voting.

Art. 24. To see how much money the town will vote to grant and raise for bush removal for the ensuing year.

Budget Committee recommends \$1,000.00. Unanimous vote.
